

Who is MCAS?

About MCAS

Since 1919 the Mechanical Contractors Association of Saskatchewan Inc. has been the voice of the Mechanical Contracting industry in Saskatchewan. Through industry advocacy, networking events, education, and services, MCAS is the only trade association focused solely on the needs of the mechanical contractor. The mandate of the MCAS is to “encourage, support, and promote the advancement of the Mechanical Contracting Industry in Saskatchewan.”

Our Mechanical Contractor membership is comprised of Plumbing, Heating, Refrigeration, Steam Fitting, Pipe Fitting and Sheet Metal trades. We recognize the industry extends beyond the contractors. Product suppliers fall into our Affiliate Member category and industry specific service providers fall into our Professional Member category. We have also established a Trade Member category for those who work alongside the mechanical trades.

The Association is governed by an elected Board of Directors representing a cross section of the industry and the province. The Executive Director, Administrative Assistant, and Member Services Coordinator carry out the mandate of the Association and respond to the needs of members.

The MCAS focuses on the needs of the mechanical contractor and has dedicated time and energy to advocate on your behalf at all levels of government. From changes to the apprenticeship ratio, to refrigeration mechanics now able to challenge the domestic gas exam, to the introduction of Prompt Payment, and most recently the expansion of the Technical Safety Authority of Saskatchewan, MCAS advocates on behalf of its members and the results impact the industry across the province. We are industry focused, and member driven.

Membership in the Mechanical Contractors Association of Canada

Contractor members of MCAS automatically become members of the Mechanical Contractors Association of Canada - Canada's largest trade association. As the national voice for our industry, the Association delivers education and training, government and industry representation, business tools and industry advocacy.

INDUSTRY FOCUSED. MEMBER DRIVEN.

Your Voice in Industry

What makes the MCAS stand out from other provincial associations? We are the only association in Saskatchewan that focuses solely on the issues facing those in the mechanical contracting industry. We represent your needs each and everyday. We ensure that the voice of our members is heard through representation on the following committees/boards/councils:

- Mechanical Contractors Association of Canada
 - National Director Jarvis Rye, North Battleford LUK Plumbing, Heating & Electric Ltd.
 - National Director Joanne Harpauer-Digneau, Gateway Mechanical Services
- Mechanical Contractors Association of Canada Advocacy Committee
 - Joanne Harpauer-Digneau, Gateway Mechanical Services
- Mechanical Contractors Association of Canada Innovation Committee
 - Jarvis Rye, North Battleford LUK Plumbing, Heating & Electric Ltd.
- Mechanical Contractors Association of Canada Women in Mechanical Contracting Committee
 - Nahanni Dearing, Dynamic Agencies
- Saskatchewan Construction Association Advisory Council
 - Nathan Rysavy, Black and McDonald Limited
- Saskatchewan Apprenticeship and Trade Certification Commission Trade Boards
- Sask Energy Network Dialogue Tables

We are proud of the relationships we have developed with our industry partners.

- Liaison Committee meets quarterly. At the table we have SaskEnergy, TSASK, Building Standards and Licensing, ASHRAE, CIPH, SATCC and MCAS members. This committee provides an opportunity to bring issues forward for discussion and to work to resolve those issues.
- Newly formed Construction Round Table Committee where we will be meeting regularly with SaskBuilds.

Customized Training

Our training courses are designed to meet a variety of needs no matter the size of your workforce. These post-journeyman courses were specifically developed with the mechanical contractor in mind. Most of the courses include lab time and hands-on training.

- Hydronics
- HVAC Level 1 & 2
- Cross Connections
- Air Conditioning Theory & Labs
- Medical Gas
- Canada's Ozone Layer Protection Awareness
- Lunch & Learn sessions on a variety of topics
- Webinars on a variety of topics
- And More!

MCAS / SaskEnergy Joint Technical Training Center

The MCAS partnership with SaskEnergy enabled the development of the Technical Training Center. The centre includes classrooms and computer labs that are equipped with an overhead projector, and white boards. The technical lab offers unique hands-on training with exposed furnaces, boilers, ventilation and cooling systems, two air conditioning systems, and hydronics board. The MCAS / SaskEnergy Joint Technical Training Center is also available for rent by MCAS Members.

Continuous Training Certified Program

The Continuous Training Certified program was created specifically with members in mind, to showcase and celebrate members who are dedicated to continuous training within the Mechanical Contracting industry. Criteria for the program includes MCAS Membership and a combined number of credits in MCAS training and outside training. Benefits include industry and customer recognition as a leader in continuous training, framed certificate and decals for display and use of the Continuous Training Certified logo on websites and other documentation.

Construction Education Council

MCAS is able to access courses offered through the Construction Education Council - the education branch of MCAC. CEC offers financial / accounting courses, project management, supervisory and other soft skills training.

MCAS Safety Manuals

\$360

This manual is an in-shop safety program. Our basic manual has been written and approved for MCAS by a licensed Saskatchewan officer and is qualified to all Occupational Health and Safety (OH&S) Standards.

MCAS Quality Control Manual

First printing: \$1250 / Renewal: \$350

A Quality Control (QC) Manual is the written description of the quality control program that address all requirements of Codes, Acts and Regulations. A QC Manual is required if the company intends to construct, install, alter or repair a boiler, pressure vessel, fitting, pressure piping system or refrigeration plants, with some exemptions. Manuals and licensing require approval from the Technical Safety Authority of Saskatchewan (TSASK).

MCAS Membership Roster & Product Guide

Complimentary

This booklet is a listing of MCAS's most current membership and product reference guide. It contains product lines carried by some MCAS Affiliate members. Affiliates may choose to submit product information to be included in the book. It is continually updated on the website, and printed once per year. This booklet is complimentary for members.

Also available:

Labour Estimating Manuals, Jobsite Journals, Change Order Procedure Guides, Shop Drawing Title Submittal Sheets, Project Management Manuals.
