

COURSE DESCRIPTION

This course will cover the following:

- AC electricity
- Capacitors
- Drawing and reading intermediate wiring diagrams
- Motor theory
- Troubleshooting motors
- Thermostat and control wiring
- Troubleshooting heating and cooling control circuits

CERTIFICATION

This course is 24 hours over 3 days of theory & practical instruction.

Please note HVAC Level 1 is required prior to taking HVAC Level 2.

This course qualifies for the Canada-Saskatchewan Job Grant.

THE PRESENTER

Greg Scrivener has worked in the refrigeration and air conditioning industry for more than 15 years. He has experience in almost all aspects of the design, construction, operation, and maintenance of commercial and industrial refrigeration systems. Greg is currently providing the industry with specialized refrigeration consulting services that focus on energy and capital spending management and advanced troubleshooting. He is also facilitating the training of many HVAC/R topics for owners, contractors, industry groups and governments. Greg graduated from the University of Saskatchewan with a B.Sc. in Mechanical Engineering and is a Journeyman Refrigeration Mechanic. He currently sits on a number of ASHRAE Technical Committees and is very involved in the development of refrigeration system safety standards as an active member of the ASHRAE Standard 15 committee.
