Course Synopsis: In this interactive program, participants will review content within both the Gas and Plumbing Technologies.

Facilitated by Jules Chenard, a comprehensive review of the National Plumbing Code including sizing of drainage and venting, interpretations, rural water supply and material residential and commercial settings.

Focusing on key technical areas of the B.149.1 and Saskatchewan Codes of Practice including gas appliances, vent sizing and materials, piping, clearances, access, and walkways will follow with Jesse Abdai.

CERTIFICATION

Jules Chenard

Jules Chenard is a Journeyperson Plumber with over 40 years experience in the Mechanical field. He has diverse piping and installation experience in all sectors of industry including residential, commercial, and industrial applications.

Jules has spent 16 years of his career as a Plumbing Instructor at Saskatchewan Polytechnic in Saskatoon. Jules is currently employed at TSASK as a Gas and Plumbing Inspector in the Saskatoon rural area. Jules continues to facilitate the training and development of the plumbing technology with TSASK for the Province of Saskatchewan.

Jesse Abdai

Jesse Abdai has worked in the plumbing and gas fitting industry for more than 22 years. He has experience in the residential and commercial construction and service industry. Jesse has been employed as a gas/plumbing inspector since December of 2014. He spent the first 7 years as an inspector in the Prince Albert district and has transferred to the Regina district as of March of 2022.

Jesse received his Journeyperson Plumbing and General Gas fitters license through the Kelsey Campus of Saskatchewan Polytechnic. Jesse received the outstanding new journeyperson plumber award in 2006 from Apprenticeship Saskatchewan. Jesse has been committed to the development and ongoing training of plumbers and gas fitters through his role as a guest speaker at Sask Polytechnic, SaskEnergy, and mechanical contracting companies.
